BLAIRMORE IS CENTRE

Will Erect Large Building--D. C. Drain Will Enlarge His Hotel

The fact that P. Burns & Co. are making Blairmore their headquarters for the Pass and are about to erect a large meat market at this place is but another proof of Blairmore's importance as a business centre.

F. Woodyard, the superintendent of construction for P. Burns & Co., is in Blairmore making preparations for the erection of a meat market which is to be sixty-five feet long, twenty-five wide, and will probably have two stories.

Already things have been arranged to have the present building moved across the street where the business will be carried on until the new building is ready for occupancy.

The new building will be erected on the old site and will have a large combination ice house and refrigerator. This will mean a big saving of meat for the company. As it is now much meat is spoiled and, of course, thrown away. And all this waste because there is no means of keeping it fresh and clean for any length of time the same as the big meat shops in the cities have. The weekly sales by the company along The Pass

## As Others See Blairmore

Blairmore must be increasing very rapidly in population when one of the young men from Coleman got lost there recently.—Coleman Miner.

The municipal council of the village of Blairmore has let the contract for the installation of a waterworks system at that place. W. J. Budd of Blairmore, was the successful tenderer. The water will be taken from Wolf Creek at a point about two miles distant and will be brought to the village in 12 inch wire wound wooden pipes. The intake is 200 feet above the town giving a gravity pressure of about 85 lbs to the square inch. When completed Blairmore will have a first-class water supply of sufficient capacity for a city of twenty thousand people.—Fernie Free Press.

are enormous and their efforts in giving their patrons nothing but wholesome and fresh meats have been very successful, but the new refrigerator with a temperature of 32 degrees will preserve the meats and will prevent of their being any waste.

Realizing that Blairmore is the best place for the distributing point, the company will make it their head quarters for The Pass and will make their wholesale shipments from Blairmore.

Amongst the many other building improvements proposed by some of Blairmore's business men is a large addition to the Blairmore hotel. Plans are completed for a forty-five ft. addition to the north end of this hotel. It will be two stories and will have a sample room, an increase to the dining room, besides several bedrooms on the second floor. This will make the Blairmore one of the largest hotels in this district. The improvements will cost about \$7,000.

AT THE BRICK WORKS

Blairmore Will Have One of Largest and Best Plants in the West

A conversation which recently took place at a railway station not many hundred miles from here ran as follows: "Where does all the brick come from? One car load of bricks passed this way going west yesterday and two more car loads today. This surely indicates a good output at some place." When the freight train side-tracked to allow a passenger train to pass, the person addressed said to his companion: "You might easily find out this by walking over to the train, and if the brick is of good quality you will see the name of the house of this industry stamped in the brick." And sure enough it was there in plain letters—BLAIRMORE. This makes Blairmore the home of another good industry.

In June, 1909, Henry Pelletier seeing the necessity of opening up an industry here that would produce good building brick for the use of the Pass residents soon became active and in a very short time had buildings erected and machinery installed and was shipping car loads of brick before many of Blairmore's residents knew that such an industry was being carried on so near their doors.

Ever since its inception the

Blairmore brick yards have been known for its high-grade product and its fame has spread all over the North West and only this week a large shipment was consigned to Vancouver. Notwithstanding the great demand locally for this brick, the owners have been able to make large consignments to outside points; but although the daily output now averages about 20,000, it is much less than the demand.

In June last W. J. Budd purchased from H. Pelletier all his holdings in the brick yards at Blairmore and became sole owner. Mr. Budd at once secured the services of an expert brick maker in the person of F. Pondergast and gave him the management of the entire works. Mr. Pondergast is a brick maker of long experience and was for several years manager of the brick works at Sandstone.

As we have already stated the demand for this product is far greater than the supply. Mr. Budd has decided to increase the output by installing more machinery and building more kilns. The number of kilns now in use is three but during the coming winter those will be taken down and eight up-to-date down-drought kilns will be constructed. The brick in the new kilns will roast and dry in eighteen days whereas it requires thirty days for the present kilns to do their work. A still better brick will also be made.

The proposed improvements will cost \$50,000 and in about six months time Blairmore will have as good, if not better brick works than any other place in the West.

## ALL A MISTAKE.

By Which a Man Escapes One Bondage to Fall Into Another.

By EDWARD C. HANCOCK.

Copyright, 1916, by American Press Association.

I reached my destination at 11 o'clock at night—was driven to the hotel, was shown to my room and went to bed. The next morning I did not return to the room after breakfast, but did so at noon. An important matter of business absorbed my attention, and I was unprepared for anything else. My key did not work in the lock, but turning the knob, the door opened. I concluded that either I or the maid who had put the room in order had left it unlocked.

Still thinking of other matters, I saw on the mantel a package down to my feet. It was about three inches long by two broad and an inch thick. At another time I would have examined it, but with my mind full of business, I concluded it to be a package of small parcels I had taken out of my coat case when making my toilet in the morning, so I put it in my coat pocket.

Going to the stand to wash my hands, I discovered lying on it a ring set with two large diamonds. I dropped my business and under my attention on the ring. Then I looked about the room. There was a trunk in it that was not locked. A wardrobe stood open, and I could see with articles of woman's apparel. I had got into the wrong room.

Had the ring not been exposed I would have simply retired. As it was, if I should be seen leaving the room and a thief should appropriate the jewelry I would be suspected of having stolen it. I concluded to take it to the office.

As I was leaving to do so I met a lady about to enter. She looked at me, and I looked at her. She looked at me, and I looked at her. She looked at me, and I looked at her.

"What were you doing in my room?" Before I had time to reply she called a porter who was just coming. "Hold that man till I go into my room and see if anything is missing." She ran into the room while the porter kept me under observation.

"It's gone," I heard her say, and coming out she told the porter that she had left a diamond ring on the washstand and I had taken it.

"Lardon me," I said. "I put into the wrong room. I found your ring on the washstand."

"That's a likely story," said the porter.

"What was I doing in your room?" she asked. "I found your ring on the washstand."

"That's a likely story," said the porter.

"What was I doing in your room?" she asked. "I found your ring on the washstand."

## THE LAUNDRY OF LIFE.

Life is a laundry in which we are tossed out of soap and suds.

We enter it when we are born, our colors bright, full and soiled. We exit "done up" and soiled.

Prayed round the edges, worn and thin, life is a rough old linen singer. Who can stand a stain?

With other linen we are tubbed, with other linen often tangled, in open court we are scrubbed and mangled.

Some take a glass of happiness, the hardest wear cannot diminish; others, alas, get a "come-hither" from life.

It will be useless, she sadly said, "for you ever to tell me again that I am beautiful."

"Why do you say that?" the young man pleaded. "I want to see your teeth."

"I want to see your teeth," the young man pleaded. "I want to see your teeth."

## Milady's Mirror

Engraved faces are more often the result of habit than the marks of Time, that professional etcher that usually gives a deep credit for faint outlines. Woman is not content with expressing herself in words. She must needs make little noods and funny faces to give completion to her ideas. If you wait about your lack of beauty wait yourself for one about you. You will be surprised to find what wonderful things you will do with your own face. If continuance were not so substantially built they would sooner show the wear and tear imposed upon them.

Women are so prone to be indecisive in their life. The fretter has a signboard on her forehead, and she advertises her profession of official worry by growing her plait between her eyes, by allowing her mouth to droop at the corners and by taking on the plaintive portrait of misery in which she really resides.

But the optimist, the individual of good cheer and laughter, sails serenely along the high seas of existence with a smooth, river-tressed face, which makes her remain so young; that she never really outgrows her happy days of mad pines and pinafores.

If Possible Ride Horseback. Horseback riding is one of the best known exercises for women. It gives grace and health. Anything that makes her remain so young; that she never really outgrows her happy days of mad pines and pinafores.

## Editorial Notes

England has a U.S.A. of her  
own—United South Africa.The ex-president of the United  
States is still wielding the big  
stick and the bosses dread his  
coming.General Botha, the premier of  
South Africa, has failed to secure  
any general support from the En-  
glish speaking electors of that coun-  
try. This may lead to a retirement  
of his government.The fishermen of Labrador and  
the Straits may no longer depend  
solely on the trap for their catches.  
The fish keep out in deep water  
and the trawls will have to be re-  
ported to in future if those fisher-  
men are to secure paying catches.Reports from Macleod say that  
Maunsell, the Liberal candidate, is  
having victory all along the line  
and that on Monday night next it  
will be Edward H. Maunsell, M.P.  
P. Evidently the Macleod people  
know a good thing when they see it.It is now supposed that the  
United States customs law will be  
remodelled because of the angry  
mood in which Lord Northcliffe  
got the other day, when the New  
York customs officials insisted  
upon inspecting his personal effects  
before the ship on which he was  
riding was allowed to enter the  
harbor of New York.The chances for Mr. Riley's re-  
election in the Gleichen riding are  
very doubtful. A. J. McArthur  
seems to be the favorite of the  
voters of that constituency. In  
Mr. McArthur the Gleichen electors  
will have to represent them in the  
provincial house a sane, care-  
ful and conscientious man.When Self-Amusing  
Charley comes Ter TownChas. O'Brien extended his vocal  
chords in front of the Miners' hall  
on Sunday night for a considerable  
period. Charley has a sonorous baritone  
that is a pleasure to him to hear.

—Fannie Free Press.

Charley O'Brien, the socialist star  
of Blairmore, held an open air meet-  
ing last Saturday evening on Main  
street. Charley wished to impress  
his audience with the fact that they  
were all slaves, his audience seemed  
to be largely composed of Russians.  
For once Charley was right—Homer  
Times.A special industrial edition of  
The Nelson Daily News, published  
on Saturday last, is nicely illus-  
trated, and ably and very creditably  
written besides being the produc-  
tion of mechanical experts. It  
advertises the Kootenaya and should  
do much towards attracting many  
thrifty homeseekers to that great  
fruit growing country.J. R. Wallace and G. L. Pedler,  
manager and editor respectively of  
the Fernie Free Press, are the  
luckiest newspaper men that we  
have yet heard tell of. At the  
annual rifle shoot held last week  
in Fernie, Mr. Wallace won a  
shield, a medal, a barrel of Mott's  
beer and three cups, a sucking pig  
and a knife, and a grip while his  
partner won a turkey and a medal.

## Happenings in and Around Blair- more

W. J. Bodd returned from the coast yesterday.

A car of flour for the Crow's Nest and Feed Co. was unloaded Saturday.

Fine Watch Repairing my specialty. Try me once. - B. B. MacDONALD.

W. Wolstenholme stacked 2 cars of hay on Monday last.

The Rocky Mountain Cement Co. shipped 450 barrels cement to eastern points Monday.

W. A. Beebe, went to Macleod on Monday's "local" and returned to Blairmore again same day.

High-Grade Movement, which keeps time to the second. Come in and see them at MacDONALD's.

Order a Piece of Jewellery made up to your own design. Have something original and try MacDONALD.

Sam Lee is putting on an addition to his kennel and will be in a better position than ever to turn his poker chips.

Mr. Riley, secretary-treasurer of the Rocky Mountain Cement Company, Calgary, was in town on Saturday.

J. P. Macleod, ex. Mr. P. Fincher Creek, was in town yesterday, the guest of J. A. McDonald.

F. Woodyard, superintendent of construction for P. Burns & Co., is in town this week making preparations for the erection of a large meat market here.

The ten-mile race last evening between John D. Mara's and the crack trotters of F. W. Doubt, resulted in a victory for the horses by about ten yards. The time occupied was 58 minutes, which was very good, considering the condition of the track.

H. F. Weber, the well-known business light of New Michel, is the latest gentleman whose attention has been drawn to the future possibilities of Blairmore, and will conduct a large dry goods department on Victoria Street. See his announcement in another column of this paper.

The roof of the No. 2 kiln at the brick yard was destroyed by fire at noon on Saturday last. Fortunately there was only a very light wind blowing at the time, and the other roofs were covered with a thin layer of snow or a greater fire would have occurred.

Rev. Arthur J. Langlois arrived in town this morning from Edmonton to take charge of the Presbyterian mission here and at Lillo. Mr. Langlois can speak French very fluently and will be able to reach the French as well as the English speaking people of this mission.

The new addition to the Cement Lodge has just been completed and is now opened up for boarders. The new apartments are complete throughout and has large rooms and bathrooms. This boarding house is conveniently situated in the east end of the town, fronting on Dearborn Street.

In another column, will be found the announcement of Mr. L. Dutil, who has recently taken over the hardware business still recently conducted by Mac On. Mr. Dutil has formed a company known as the Blairmore Hardware Co. and with his long experience in the hardware, plumbing and plumbing experience should receive a large share of local patronage.

S. F. Aitken, for a long time dry goods clerk at the Coleman-Mercantile, Coleman, but recently of a large goods furnishing store of Vancouver, arrived in town on Tuesday where he will remain for some time as head clerk for A. B. Haines while the latter gentleman goes on a business trip to the Pacific coast. Mr. Scott was surprised at the wonderful growth of this place during the past year and believes that Blairmore is one of the nicest places in the West to live in.

Some hotels are noted for their cleanliness and hospitality, some for their up-to-dateness and general cuisine, and a few for their high conduct and for the "numerous bowls" among their patrons. Some are the last named hotels don't need advertisement, for they speak for themselves. Who will deny it?

We like (?) the idea of people "bustling in" and admiring (?) their noble (?) tactics of "sending" away from Blairmore for their little nick-nacks in the printing line. So childish as to be prejudiced against our plant because we printed matter for their compelling professionalist. We are not losers thereby, but much the wiser to the fact of our duty to the "home industry."

## Burnis Notes

Mr. Westfall, of the Davenport Coal Co. has been appointed postmaster at Burnis.

Next week's issue of this paper will contain a brief outline of the works being carried out at Burnis.

Myers, Woods and Steele, Dominion land surveyors were this week surveying the Burnis town site.

Morris Wilson and family, of the key ranch, Livingstone, are visiting Mr. and Mrs. Gammon at Passburg.

Two emigrant trains passed through here on Monday forenoon, and quite a number of our male sex were at the station to catch a glimpse of the Donkhor's fairer.

## Presentations

The ladies of the Methodist Church gathered together on Monday night and tendered a "send off" to their pastor, Rev. J. E. Rogers, and also a reception to Rev. T. D. Jones and his bride, who had just arrived from England. A large gathering of friends assembled and a very interesting and pleasant programme was gone through. Speeches and singing occupied a large part of the evening, and a delicious supper was very much enjoyed. At the conclusion Rev. Mr. Rogers was presented with an address and purse of gold. Mr. Rogers made a suitable reply. Following this came the presentation of a wedding gift and address to the Rev. and Mrs. Jones. Mr. Jones felt very much touched with the impromptu surprise and in a lengthy speech thanked the Church people for their token of regard and good wishes. —Bellevue

Don't waste your money buying plaster when you can get a bottle of Chamberlain's Liniment for twenty-five cents. A piece of flannel dampened with this liniment is superior to any plaster for lumb back, pains in the side and chest, and much cheaper. Sold by dealers everywhere.

Rev. R. Stacey McCall, who has acted as pastor of Knox Methodist Church for some time past, left on Monday night's train for Edmonton, where he will resume his studies at Alberta College.

Chamberlain's Colic, Cholera and Diarrhoea Remedy is today the best known medicine in use for the relief and cure of bowel complaints. It cures griping, diarrhoea, dysentery, and cholera by taken at the first unnatural looseness of the bowels. It is equally valuable for children and adults. It always cures. Sold by dealers everywhere.

It is rumored that Wilbur Wright will apply to the government for the grant to run an airship passenger line over the Frank slide. We expect to hear of a "flying car" competing with the horsemobiles some day.

"Can be depended upon" is an expression we all like to hear, and when it is used in connection with Chamberlain's Colic, Cholera and Diarrhoea Remedy it means that it never fails to cure diarrhoea, dysentery or bowel complaints. It is pleasant to take and equally valuable for children and adults. Sold by dealers everywhere.

## A GRAND BANQUET AT FRANK

REV. F. S. McCALL FETED

The banquet given by the Ladies Aid of Knox Methodist Church at Frank on Thursday night last was the largest attended affair of its kind ever held in that town. The gathering, which numbered a little over two hundred, were representative of every denomination and town in the Pass, and the pleasant air that hovered among the audience gave full testimony of the esteem and respect in which the guests of honor had been held. Seven long tables, daintily spread with everything that tended to tempt the inner longings, were lined up in the rear end of the big Goyette Hall, to which every justice was done by even the fastidious fasters.

After the supper a programme of speeches and songs was gone through. Among those assisting in the musical parts were Mr. and Mrs. J. H. Lee, Miss McKinnon, Messrs. Richard & Robert McGowan, while Mr. W. Simpson did the honors of chairman of the evening. Among the speakers were Revs. T. M. Murray, J. Moore, J. F. Hunter, J. E. Rogers, and W. MacMorine, all of whom delivered very touching and appropriate addresses. Following the speeches came the presentation of an address and purse of gold to the guest of the evening, Rev. F. Stacey McCall. The following address was read and presented by the chairman together with a purse of \$65:

To The Rev. F. Stacey McCall

Dear Sir, —  
The members of the Ladies Aid and church, and the officials and workers of the Sunday School join in thanking you for the hearty way you have worked for the furtherance of God's cause in Frank, and for the unselfish inspiration you have given us. We cannot say in words how much we appreciate your work among us, but we hope you will accept this token showing in a small degree the esteem and good will of us all, and accept with it our sincere wishes for your further success in the work, and hope that some day you may possibly return to us.

Pres. Mrs. A. I. Blais.  
Vice Pres. Mrs. Chas. Williams.  
Secy. Mrs. F. M. Fowler.  
Treas. Mrs. C. Pollakowsky.  
The presentation was rather a surprise to Mr. McCall, who in the course of a lengthy reply voiced his gratitude for the sympathy and help tendered to him during his two month's pastorate and greatest of all to the God above who has blessed his labors with success.

## Bellevue Notes

Steve Hambl's store is nearly completed and will soon be ready for stocking.

The line up of large business blocks on Main Street seems to speak for a busy future for Bellevue.

Steve Monaghan was in town last week, looking over the work on the Southern Hotel. This hotel will be a readiness for re-opening about a month's time.

Rev. Mr. Rogers, who has labored here for the past two months, and has won such favor among the people of the town and district, left on Wednesday for Edmonton to resume college studies.

Phil Hart, the butcher, paid a visit to the Forks last week and purchased several hords of cattle and hogs. Some of Phil's hog purchases are the finest specimens we have seen and show what can be done by hog raising in the foothill country.

Not a minute should be lost when a child shows symptoms of croup. Chamberlain's Cough Remedy given as soon as the child becomes hoarse, or even after the croupy cough appears, will prevent the attack. Sold by dealers everywhere.
